

## US COAST GUARD

At MSE Group, we understand that our success is directly linked to how effective we are in developing and implementing creative solutions to meet our clients' needs. A successful outcome requires that we focus on more than just the technical aspects of a project. It requires an in-depth understanding of the increasingly complex regulatory, institutional, and public policy issues affecting our clients.

MSE Group has served as the prime contractor on multiple task orders with the U.S. Coast Guard (USCG). We have successfully conducted OSHA HAZWOPER training, asbestos and lead-based paint awareness training, multimedia sampling programs, contamination assessment and remediation activities, benthic surveys, and submerged biological resource surveys.

## ABOUT US

FOUNDED IN 2002

MSE Group, LLC, is an international environmental, engineering, and construction firm providing qualified and competitive environmental, engineering, and health and safety services to public and private entities nationwide. Success for our clients, teaming partners, and employees is derived from an intense work ethic and the ability to enjoy the journey.

We are an SBA-certified 8(a), EDWOSB 8(m), DBE business with additional state and local small business and minority certifications in numerous states across the country. With 14 branch and satellite office locations nationwide, MSE stands ready to support your needs and exceed your expectations every time.

## MSE – FEDERAL CLIENTS

- U.S. Army Corps of Engineers – Mobile District
- U.S. Army Corps of Engineers – Savannah District
- U.S. Army Corps of Engineers – Jacksonville District
- Naval Facilities Engineering Command – Southeast
- Naval Facilities Engineering Command – Mid-Atlantic
- Air Force Civil Engineering Center
- Department of Homeland Security – Federal Law Enforcement Training Center
- Department of Homeland Security – U.S. Coast Guard
- National Park Service
- U.S. Forest Service
- Department of Veterans Affairs
- General Services Administration

# US COAST GUARD

## REPRESENTATIVE PROJECT HIGHLIGHTS

### Egmont Key Light Station, Natural Attenuation Groundwater Monitoring for Lead and Petroleum

The Egmont Key lighthouse and its surrounding buildings in St. Petersburg, Florida, are historic structures dating back to the 1800s. During its history, the island served many purposes, from a strategic military installation to its current use as a Florida State Park. The site consists of lead and petroleum-contaminated groundwater.

MSE has provided groundwater assessment support in accordance with FDEP's Natural Attenuation Monitoring Plan, and is currently supporting USCG in an effort to receive No Further Action status at the site.

### Base Miami Beach, Petroleum-Contaminated Groundwater Cleanup

Base Miami Beach provides support for USCG search and rescue missions; enforcement of federal laws and treaties; ports, waterways, and coastal security efforts as well as maintenance tasks for base equipment, vehicles, and vessels. Active petroleum remediation of the soil and groundwater has been ongoing for more than 10 years.

MSE provided remediation design and implementation consisting of extracting contaminated groundwater from the well of concern to reduce contamination. As a result of the groundwater remediation, the contaminant of concern showed more than a 90 percent reduction in concentration.

## SBA-CERTIFIED

### NAICS QUALIFIED

- 115310 Support Activities for Forestry
- 237310 Highway, Street, and Bridge Construction
- 237990 Other Heavy and Civil Engineering Construction
- 541310 Architectural Services
- 541330 Engineering Services
- 541340 Drafting Services
- 541611 Administrative Management and General Management Consulting Services
- 541620 Environmental Consulting Services
- 541690 Other Scientific and Technical Consulting Services
- 541715 Research and Development in the Physical, Engineering, and Life Sciences (except Nanotechnology and Biotechnology)
- 541990 All Other Professional, Scientific, and Technical Services
- 562212 Solid Waste Landfill
- 562910 Remediation Services

## SUCCESSSES

### EXCELLING IN OUR FIELD

MSE Group has built a successful partnership with the U.S. Coast Guard and has served as the prime contractor for more than \$400,000 of USCG project work.

## USCG

### MSE PROJECT LOCATIONS

- USCG Air Station Clearwater
- USCG Base Miami Beach
- USCG Civil Engineering Unit Miami
- USCG Station Key West
- Egmont Key State Park
- Fort Desoto State Park at Mullet Key

## USCG

### SERVICES & CAPABILITIES

- Environmental assessment
- Environmental remediation
- Long-term monitoring
- Benthic survey
- OSHA training
- Asbestos training
- Lead-based paint training
