

INDUSTRIAL SERVICES

At MSE Group, we understand that our success is directly linked to how effective we are in developing and implementing creative and cost-effective solutions to meet our clients' needs. A successful outcome requires that we focus on more than just the technical aspects of a project—it requires an in-depth understanding of the increasingly complex regulatory, institutional, and public policy issues affecting our clients.

Success also requires a commitment to excellence and the ability to thrive in a teaming environment—cornerstones of MSE's success in supporting industry and manufacturing operations.

ABOUT US

FOUNDED IN 2002

MSE Group is an international environmental, engineering, and construction firm. Success for our clients, teaming partners, and employees is derived from an intense work ethic and the ability to enjoy the journey. We are an SBA-certified 8(a), EDWOSB 8(m), DBE business with additional state and local small business and minority certifications throughout Texas, Florida, and the southeastern United States.

We stand ready to support your needs and prove why we are **Exceeding Expectations Every time.**

WHY MSE

MSE Group has successfully completed environmental compliance and pollution control systems optimization in support of our industrial and manufacturing clients. We currently hold multiple long-term contracts with Fortune 500 businesses to provide turnkey solutions and support for EHS initiatives and recurring compliance support. Our technical depth and ability to self-perform design/build initiatives continue to provide efficient, cost-effective solutions for our industrial partners.

REPRESENTATIVE SERVICES

- Air quality/Title V permitting
