

US NAVY & US MARINE CORPS

Since 2013, MSE Group has been one of the most trusted providers for the U.S. Navy and Marine Corps (USMC) throughout the southeast. Our work spans over 20 CONUS and OCONUS facilities and includes as many as 30 task orders and 15 facilities managed concurrently. Such experience demonstrates our success in applying environmental regulatory requirements over diverse Department of Defense weapons system platforms including aircraft, ships, submarines, ground training, and bombing ranges.

MSE has successfully partnered with the Navy and USMC to meet and exceed environmental program goals in many areas, such as streamlining and reducing the compliance reporting burden here at home and providing solutions to complex waste management issues at installations overseas. Our proven expertise in hazardous and solid waste management/minimization has helped facilities save millions of dollars while improving safety and minimizing compliance risk.

ABOUT US FOUNDED IN 2002

MSE Group, LLC, is an international environmental, engineering, and construction firm providing qualified and competitive environmental, engineering, and health and safety services to public and private entities nationwide. Success for our clients, teaming partners, and employees is derived from an intense work ethic and the ability to enjoy the journey.

We are an SBA-certified 8(a), EDWOSB 8(m), DBE business with additional state and local small business and minority certifications in numerous states across the country. With 14 branch and satellite office locations nationwide, MSE stands ready to support your needs and exceed your expectations every time.
